Wandsworth Adult Social Care Annual Report 2021 - 2022

This report highlights the achievements and challenges over the last year. Our aspiration is to “deliver the best for residents” and support our residents in staying as independent as possible.

When people become less independent or unwell, we want to ensure they can access care and support at the right time and in the right place.

We do this by supporting people at home or in a home-like setting wherever possible and having positive conversations about what they can do for themselves and their ambitions, rather than focussing on what is not going so well in their life. We will work in partnership with residents, their families and local communities to find solutions before introducing council services.

3,747
residents supported by Adult Social Care in 2021 - 2022

So how did we do?

72% of people needed less care or no care at all after receiving an enablement service

96% of people aged 65 and over remain in their home 91 days after hospital discharge

98% of people's outcomes were achieved as a result of a safeguarding enquiry

3rd best in London for Adults in contact with mental health services who live independently

2nd best in London for not placing young adult aged 18-64 in care homes permanently

76% of people have control over their daily life

87% of people feel safe and secure with their service

2,867
people supported
in their own home

How we support our residents

3,747 people provided with care and support

760 carers were supported

783 people received a direct payment

723 people supported in care homes

413 people in supported living accommodation

3,486 safeguarding concerns responded to

1,053 people supported to return home after a period of stay in hospital
