## Life of Fish

84 Moyser Road, SW16 6SQ

David started working at a wholesale fish company since he was a teenager, he then joined the amazing team at Fin & Flounder in East London.

A couple of years later, David left Fin & Flounder and became a manager in the bustling Selfridge's food hall. Managing the fish concession. Selfridge's was a whole different kettle of fish (sorry couldn't resist the pun) to Fin & Flounder, supplying fish to celebrities, private chefs and a more lavish customer type - doing demos for passing by customers and creating huge impressive fish displays which took hours to create.

Whilst at Selfridge's David started up his own street fish grill at Fuji Central Maltby Street market which is a hidden street of arches in the heart of Bermondsey / Borough market. He was there for six months which gave him a taster and an insight into what it would be like to own his own business. After seven years at Selfridge's, David was ready for something new and exciting but just didn't know what.

And then along came the Coronavirus pandemic.....

The UK was on lockdown. David hated the idea that people around him being stuck indoors without amazing food! His friend, baker and café owner Jimmy (Cut the Mustard in Furzedown) gave him the opportunity to create a mini fish stall outside of Jimmy's café. David was able to use his extensive list of suppliers and offer incredible fresh sustainable fish from the coast to the people of Furzedown! David had no idea how it was going to go, but just wanted to do something for the community and help people have amazing produce in a time of crisis. Little did he know there would be queues and that he would be sold out within a few hours. It was clear to see the people of Furzedown were hungry for a fishmonger so he went back the next day and already had a queue before he set up the stall. Soon David realised this wasn't just going to be a one off weekend. However, COVID19 restrictions were tightened and with 2m distancing introduced he was unable to do the fish pop up at Cut The Mustard. With a ton of Instagram messages from people who had seen or heard of him asking how they could get hold of some fish, he offered a delivery service so started doing some home deliveries. Eight weeks later David was renting a food preparation space in East London delivering around 200 orders over Friday and Saturday with the help of a couple of amazing delivery drivers. This was all whilst waiting for his forthcoming shop on Moyser Road to be renovated so he could move in.
