Green Homes Grant

Andrew Hagger

Policy and Review Manager, Wandsworth Council

WHAT IS THE GREEN HOMES GRANT?

Provided by central government, the Green Homes Grant is funding to support retrofit of homes

Homeowners and landlords in England can apply for a voucher towards the cost of installing energy efficient and low-carbon heating improvements to homes

Anyone is eligible and can access a voucher for up to £5000

If you qualify for certain benefits you could be eligible for up to £10 000

The scheme has recently been extended and vouchers must be redeemed by 31 March 2022

“As well as reducing carbon emissions and making homes warmer, we can help reduce your fuel bills”

WHAT IS THE COUNCIL'S ROLE IN ALL THIS?

Wandsworth has secured funding to deliver retrofit for around 70 homes in the borough, with up to £10 000 available for each property

This is different to the voucher scheme that anyone can apply to and is targeted at those homes where the energy efficiency rating is very poor and household income is low. Many of these homes will be in or close to fuel poverty

WHO IS ELIGIBLE?

The Wandsworth scheme is not open to all and is targeted at those who are most in need

We have identified those we think are eligible and will be sending out letters to them this week.

We are also setting up links with other groups in the borough who may be in contact with people who may be eligible

You must be either an owner-occupier or private landlord

The property must have an EPC rating of E, F or G

You need to be willing to have the work done to your property

The household income must be under £30k per year
