Completed Works

The first Stage of Helix's contracted works are now complete, with the demolition out of the way we can move forward with the welfare setup.

Planned Works

In this next period we will be setting up the site compound during June/ July which will consist of two 24' cabins and a separate toilet block. Drainage diversions are to commence on the North Estate along with underground ducting works to take the incoming supplies for the new apartment block.

Community Engagement

We have made contact with the local primary school and are looking forward to our first

engagement with the children undertaking an Art competition on 'Nature'. The winning designs will be proudly displayed on the site hoarding.

Please remember access to the Bricklayers Arms is still available through the estate just follow the directional arrows.

If you have any questions or concerns regarding these works, then please do make contact with Riona as she will be the main point of contact throughout the project.

Health and Safety

We kindly request you respect Helix Health and Safety site requirements and ask that you do not enter into the site and take extra care with additional

site traffic flow and machinery.

Should you wish to speak to someone during site working hours, please contact Riona in the first instance.

Thank You

Helix would like to thank you for your cooperation and look forward to supporting you throughout the works of the project.

Considerate Constructor Scheme

Helix are proud to be associated with the CCS and we strive to adhere to the code of considerate practice.
