Dear Resident,

Re: The Platt Estate – Report following garage consultation event

In response to the recent proposal received by the Council from the Platt Estate Resident Association (RA) for creating additional estate open car parking, it was agreed to carry out an estate consultation to establish if most residents were in favour of this change. The consultation took place on 9th and 11th December 2024 at The Platt Christian Centre, Felsham Road.

We are pleased to report that, overall, a total of 27 residents responded in-person at the consultation and also in writing via email. Of the 27 residents, 25 were in favour of the demolition of the garages and 2 were not. Based on the positive feedback, the council have accepted the proposal and are now engaging with our design team and the main contractor on site (Helix Construct) to work up the proposal in detail, developing the design and specification.

Once the design is agreed in the coming few weeks, we will be looking to appoint the main contractor to undertake these works, so they can be incorporated within the ongoing construction programme and avoid increasing the current build time on site.

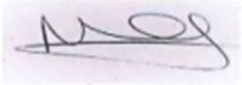

We would like the opportunity to thank residents for their participation in the consultation process and we will keep residents informed as this work continues. If you have any feedback, queries or comments in the meantime, you can contact us at

developmentteam@richmondandwandsworth.gov.uk.
